

PEOPLE, PLANET AND WATER

**EAU
PLANÈTE
ET PEUPLES**

**WATER: LET'S WORK TOGETHER
TO DEVISE SOLUTIONS FOR THE CLIMATE!**

Flooding, drought, desertification, rising sea levels... climate disruption affects the whole water cycle, severely and sometimes irreversibly affecting both people and ecosystems.

The situation is urgent!

People, Planet and Water meetings provide an opportunity for civil society organisations from around the world to come together to share their experiences and their vision for the essential resource that is water.

With one common belief: each and every one of us can and must take action to tackle climate change. Now.

PEOPLE, PLANET AND WATER
